Language Translation Guide

Website content can be translated into your preferred language. To view web content in your preferred language, you must first select your preferred language in your internet browser settings. This process varies by internet browser.

Important Privacy Notice: The following publicly available online translation tools do not comply with the privacy and confidentiality requirements applicable to student records under the Family Educational Rights and Privacy Act (FERPA). To protect student privacy, users should avoid entering confidential or personally identifiable student information into these online translation tools.

Google Chrome

- Open Google Chrome browser.
- At the top right, select **More Settings**. 
- Select **Languages**.
- Under “Google Translate,” select **Translate into this language** and select preferred language from the list.
- Turn **Use Google Translate** on or off.
- Review additional instructions on how to use Google Translate.

Microsoft Edge

- Open Microsoft Edge browser.
- Select the 3 dots icon in the upper right corner. 
- Select **Settings**, then select **Languages** to update your Preferred Language(s).
- Review additional instructions on how to use Microsoft Translator.

Mozilla Firefox

- Open Mozilla Firefox browser.
- Download the Firefox Translation add-on.
- Click **Add to Firefox** and select **Add** to install it to your browser.
- Review additional instructions on how to use Firefox Translations.

Safari

- Open the Apple menu icon then go to **System Settings**. 
- Click **General**  in the sidebar, then click **Language & Region**.
- Choose your preferred language(s).
- Review additional instructions on Language & Region settings.

PDF Documents

PDF documents may also be translated to your preferred language using Google Translate.

- Open Google Translate.
- Select the **Documents** button at the top of the screen.
- Drag and drop the file you wish to translate **or** select the blue **Browse your files** button.
