Purpose and Summary

The Commission proposes to rescind and adopt a new Chapter 3 pursuant to Executive Order 10. New Chapter 3 is proposed to explain the declaratory order process.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

● **Classes of persons that will bear the costs of the proposed rulemaking:**

In general, the proposed rulemaking does not impose requirements that would add administrative burden beyond the provisions already established in law.

● **Classes of persons that will benefit from the proposed rulemaking:**

The public and the Commission will benefit from the rulemaking since it explains the declaratory order process.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

● **Quantitative description of impact:**

The rulemaking does not impose measurable costs beyond those imposed by law.

● **Qualitative description of impact:**

The rulemaking illustrates provisions to the public about the declaratory order process.

3. Costs to the State:

● **Implementation and enforcement costs borne by the agency or any other agency:**

The agency would incur minimal costs to implement and enforce the rule.

● **Anticipated effect on state revenues:**

The proposed rulemaking is not anticipated to have any effect on state revenues beyond that of the legislation it is intended to implement.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The benefit of the proposed rulemaking is to publicly illustrate the declaratory order process. The cost of inaction would be confusion about the process the Commission utilizes in align with declaratory orders.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The rulemaking proposes an efficient administrative method of providing the identified information to the public.

6. Alternative methods considered by the agency:

• Description of any alternative methods that were seriously considered by the agency:

No other methods were seriously considered by the Commission since the method proposed is a cost-efficient and seamless way to provide the information.

• Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Alternative methods were rejected because the method used is a streamlined approach to illustrating the necessary information.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

COLLEGE STUDENT AID COMMISSION[283]

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking is not expected to impact small businesses.
