

# Chapter 12 Matrix: Technical Assistance for Meeting Accreditation Standards

This technical assistance document will be periodically revised to reflect statutory and interpretive changes. If in doubt about the version you are using, check the Department's web site to access the most recent document.

Iowa Department of Education technical assistance should be viewed as advisory unless it is specifically authorized by state statute, according to Iowa Code section 256.9A as enacted by Senate File 475. This does not apply to administrative rules, declaratory orders, or materials required by federal law or courts.

## Purposes

1. Provide clear, consistent interpretation for noncompliance determinations.
2. Ensure all schools/school districts are meeting accreditation standards.
3. Provide compliance information; however, the content in this document should not be construed to represent best practices in all areas.

## Considerations

1. "Schools" means state accredited nonpublic schools.
2. "School districts" means public school districts.
3. This document indicates if a requirement applies only to school districts (and not accredited nonpublic schools) in Iowa.
4. This document does not cover every section of Chapter 12 since some requirements are self-explanatory.
5. In some cases, Iowa Code updates have not yet been incorporated into Chapter 12. In these cases, the Iowa Code prevails.
6. **Note: Many codes have subsections with additional rules, considerations and information [ex: Elementary Program, grades 1-6 (a-j)].** Be sure to review all applicable codes and interpretations.
7. For questions, clarifications or inquiries, navigate to the corresponding Iowa Department of Education webpage and contact the appropriate representatives.

## Unit

Rule	Code
<p><b>12.5(13)</b> Unit. A unit is a course that meets one of the following criteria: it is taught for at least 200 minutes per week for 36 weeks; it is taught for the equivalent of 120 hours of instruction; it requires the demonstration of proficiency of formal competencies associated with the course according to the State Guidelines for Competency-Based Education or its successor organization; or it is an equated requirement as a part of a flexible student and school support program filed as prescribed in rule 281—12.9(256). A fractional unit will be calculated in a manner consistent with this subrule. Unless the method of instruction is competency-based, multiple-section courses taught at the same time in a single classroom situation by one teacher do not meet this unit definition for the assignment of a unit of credit, unless otherwise provided by Iowa Code section 256.11.</p>	<p><a href="#">256.11</a> Educational Standards</p>

Rule Interpretation	Where data is submitted	Iowa Department of Education Contact
