# Endorsement Allocation: Computer Science Professional Development Incentive Fund

## FY24 Grant Application and Implementation Guidance

[Introduction](#) – [Incentive Fund Endorsement Grant Application](#) – [Project Amendment Process](#) – [Project Evaluation](#) – [Expenditure Reimbursement Claim](#) – [Appendix A: Fiscal Responsibilities](#)

## Introduction

### Purpose

The purpose of this guidance is to assist grantees in understanding, administering, and implementing the provisions of this grant. Please review this document in its entirety before beginning your application.

### General Provisions

The goal of this grant funding is to build the capacity of teachers to provide high-quality computer science instruction on the Iowa Computer Science Standards. Grant funds must be used to reimburse educators seeking Computer Science or 5-12 CTE Information Technology endorsements for tuition, books and associated fees.

Computer Science is understanding how and why technologies work, exploring whether and how technology could solve real-life problems, investigating procedures, creating solutions, and learning about computing systems, programming, data, networks, and the effects on society and the individual. Computer Science is learning how to create new technologies, rather than simply using them.

Computer Science is not keyboarding, using a computer for everyday activities, such as browsing the internet; use of tools like word processing or presentation software; or using computers in the study and exploration of other subjects, and it is more than computer literacy and digital citizenship. Computer science is more than “coding.”

Computer science professional development is activities that are an integral part of providing teachers with the knowledge and skills necessary to offer computer science instruction aligned to Iowa’s Computer Science Standards. Development of lesson activities or materials, or courses or curriculum are not professional development.

Eligible Applicants – all Iowa public school districts and all Iowa accredited nonpublic school systems.

Eligible Activities – Grant funds are made available to eligible Iowa school districts, accredited nonpublic school systems, or collaboratives, in a year in which funds are appropriated by the Iowa Legislature, for the following purpose:

- A school district or accredited nonpublic school may apply to the department to receive moneys from the fund to provide tuition reimbursement for Iowa teachers seeking

endorsements or authorizations for computer science or 5-12 CTE Information Technology under [Iowa Code] section 272.2, subsection 20.

District/System Size Categories:

- Small – K-12 student population under 1,200
- Medium – K-12 student population between 1,200 and 4,999
- Large – K-12 student population of 5,000 and over

## Grant Award Agreement

The approved Grant Application ([IowaGrants.gov](http://IowaGrants.gov)) serves as the Grant Award Agreement (GAA) between the Department and the grantee. By accepting the grant award, the grantee agrees to comply with the program objectives and the project monitoring and fiscal requirements in accordance with the executed GAA.

## Project Reports and Monitoring

Project monitoring is designed to be instructive, not disruptive, and to foster information exchange and partnership. The Department monitors each project to ensure the grantee is operating the project as agreed upon, is working towards its objectives, and is following appropriate fiscal procedures. During the grant award period, monitoring may include review of project and fiscal records and communication with project stakeholders, project participants, and/or any staff directly or indirectly involved in the performance of the project. Project monitoring is intended to verify compliance with grant and fiscal requirements, provide technical assistance, offer program development and design guidance, and observe program activities.

Funds are awarded on an annual cycle contingent upon legislative appropriation and the grantee meeting the minimum legal requirements. Grantees will submit semi-annual progress reports and claims for each year of the grant cycle.

## Non-Compliance/Termination

The Department will impose sanctions in the event of noncompliance or violation of any grant provision by the grantee. Appropriate sanctions may include, but are not limited to, withholding payments, suspension, or termination of a portion or the entire grant. The Department will provide 10 days' notice to the grantee if the grant is terminated for "convenience," as outlined in the "Statement of Assurances." Grants terminated for "cause" will take effect immediately, per 281 IAC 65. If the grant is terminated, the grantee will be paid only for activities/services allowable under the grant contract that were completed prior to the effective termination date.

## Narrative

From the Application Forms screen select [Narrative \(SCRIPT\)](#).

A well-developed project plan will help ensure the success of the grant project and represents a valid commitment by you to use public resources appropriately. Successful project design answers the questions: Why, Who, What, When, Where, and How. A good place to start is by defining your target population and specifying the clear and concise outcomes you want to achieve. Lay out your short- and long-term project goals (specific desired results), strategies (specific methodologies), and objectives (measurable achievements).

## FY24 Grant Application Form

From the Application Forms screen select Narrative.

Click the  [Edit](#) button at the top of the screen to begin. **All sections must be completed.**

[Need for Project](#) section, 1) describe the current computer science reality in your district, school system, or collaborative by building, grade level, and/or content area, 2) how this proposal supports your district’s established computer science plan and, 3) tell us whether you have previously been awarded funding from this grant.

[Endorsement Proposal](#) section, 1) How many educators are directly seeking endorsements in either Computer Science or 5-12 CTE Information Technology? 2) At what school/college/university will the

classes be taken? 3) Number of K-5 teachers seeking the endorsement. 4) Number of 6-8 teachers seeking the endorsement. 5) Number of 9-12 teachers seeking the endorsement. 6) Are any teachers seeking endorsement outside of their current grade level endorsement? 7) When are classes expected to begin? Funding must be spent in FY23. 8) When are classes expected to be completed? Funding must be spent in FY23.

**Impact** section, tell us 1) how many students you predict will be directly impacted by this proposal and how you will know/measure the impact, 2) how the proposal will make a difference for CS instruction in the buildings, grade levels, and/or content areas listed in the Need for Project

You will be directed to the Application Signature page. Sign and indicate your agreement to the terms of the Funding Opportunity by checking the box. Click the [Submit](#) button.

You will receive a Confirmation stating that you have successfully submitted your application, along with your Application ID number.

Click the [Menu](#) button to return to the Main Menu.

## Project Amendment Process

Revisions may be necessary to meet the changing needs or circumstances of your project. Applicants will submit a contract amendment request: 1) to propose a general change in program activity or design and/or 2) to amend the budget when the proposed change in a budget category amount exceeds 10 percent of the total budget or \$2,500, whichever is less.

All proposed project or activity revisions must be approved by the Department prior to implementing the change or making a commitment to expend funds. The date of receipt of an amendment request is the earliest possible funding date for encumbrances based on that amendment. Amendments may not be submitted after the grant's end date. Once approved, an amendment replaces that portion of the approved grant agreement and becomes the agreement between the school and the Department.

From the [Grant Tracking](#) screen select the [Title](#) of your application.

From the Grant/Project Components screen select: Contract Amendments.

Click the [Add](#) button in the center right-hand side of the screen.

## Project Evaluation

### Project Evaluation

Project evaluation is an important component of an approved project. Not only does the evaluation help determine whether the project is meeting its objectives, but the data gathered in the evaluation process may be important to others who will want to study the project or replicate it.

Evaluative reports have the following purposes: 1) to determine if the grantee has implemented the project as agreed; 2) to determine if the grantee is making progress towards meeting its goals; 3) to determine if the activities performed by the grantee are linked to the specific outcomes of the project; and 4) to allow the grantee to present information on any problems encountered in implementing the project.

Grantees must submit a project evaluation report at the end of the grant.

### Mid-Year Progress Report

The mid-year progress report is used to provide the Department with information about how well your project design is working in achieving the goals laid out in your Application, to let us know what, if any, issues you may have encountered to date, and your plans moving forward.

From the **Grant Tracking** screen select the “**Title**” of your application.

From the Grant/Project Components screen select: **Status Reports**.

## Appendix A: Fiscal Responsibilities

When you accept a grant award you accept responsibilities involving the management and administration of programmatic, financial, and reporting aspects of the grant project. This section provides applicants and grantees with general recommendations for planning and managing categorical grants.

### Fiscal Management

The Grant Manager, in coordination with the business office, is responsible for monitoring all project expenditures to ensure that funds are expended in accordance with the approved budget and the grant project timeline.

Each award must be fully expended by September 30, 2024.

Awards funded under this program must adhere to applicable accounting principles and governmental auditing standards and must be used solely for the approved project and not for any other purpose.

A grantee must maintain effective control and accountability for all funds, property, and other assets and must adequately safeguard all assets and ensure they are used only for grant-authorized purposes. The local board of education is responsible for the proper disbursement of, and accounting for, project funds. Written district policy concerning wages, mileage and travel allowances, overtime compensation, or fringe benefits, as well as State rules pertaining to competitive bidding, safety regulations, inventory control, and out-of-state travel must be followed. Supporting or source documents are required for all grant related transactions entered into the district’s recordkeeping system. Source documents that authorize the disbursement of grant funds consist of purchase orders, contracts, time and effort records, delivery receipts, vendor invoices, travel documentation, and payment documents, including check stubs.

To be considered allowable for reimbursement, costs must meet the following general criteria: 1) be necessary and reasonable for proper and efficient operation of the project; 2) be permissible under applicable state and/or federal laws and regulations; 3) conform to any limitations or exclusions set

forth in these guidelines, laws or regulations, or other governing limitations as to types or amounts of cost items; 4) be net after applying all applicable credits, such as purchase discounts, project-generated income, and adjustments of overpayments; 5) must not be included as a cost in any other project or grant; and 6) be supported by appropriate documentation.

Records Retention: Supporting documentation for this grant must be kept for at least six years after the last payment was made unless otherwise specified by program requirements. Additionally, audit or litigation will "freeze the clock" for records retention purposes until the issue is resolved. All records and documentation must be available for inspection by Department officials or its representatives.

## Budget and Expenditure Guidelines

The Computer Science Funds grant is considered a categorical grant as defined by 281 IAC 98. Project budgets are subject to approval by the Department and based on availability of funding.

All anticipated expenditures should be accounted for on the grant application budget page.

Funds must be used to supplement, not supplant, funds that would otherwise be used for the activities supported by the program.

Moneys received for this grant are subject to the General Provisions (Division I) of 281 IAC 98, Financial Management of Categorical Funding, and shall only be used for to pay the direct costs of providing the school's project. Grant award moneys may not be used to pay for costs that are allocated costs or that are considered indirect costs or overhead.

## Fiscal Definitions

### Fiscal Year

Funds not fully expended by September 30, 2024 do not carry over to the next grant year.

### Uniform Financial Accounting

Grant expenditures shall be classified in accordance with Iowa Uniform Financial Accounting.

The Source code for this award is: 3379

The Project code for this Award is: 3370

### Unallowed Costs

Expenditures for activities that do not meet the goals of this grant are not reimbursable.

### Supplement Not Supplant

"Supplement, not supplant" means that the categorical funding shall be in addition to general purpose revenues; that categorical funding shall not be used to provide services required by federal or state law, administrative rule, or local policy; and that general-purpose revenues shall not be diverted for other purposes because of the availability of categorical funding. Supplanting is presumed to have occurred if the school district uses categorical funding to provide services that it was required to make available under other categorical funding or law, or uses categorical funding to provide services that it provided in prior years from general purpose revenues, or uses categorical funding to provide services to a particular group of children or programs for which it uses general purpose revenues to provide the same or similar services to other groups of

children or programs. These presumptions are rebuttable if the school district can demonstrate that it would not have provided the services in question with general purpose revenues if the categorical funding had not been available” (281 IAC 98.1).
