

Iowa Science Standards

IMPACT

Quick Start Guide

Implementation Map for Administrators, Coaches & Teachers

1

Select your focus criteria:

determine an area of interest from the five criteria presented on the IMPACT

Determine implementation level:

using the descriptors provided for each feature, determine which best describes science instruction in your classroom

2

3

Provide evidence:

using the IMPACT Reflection Guide, provide evidence of your selected implementation level

Choose a feature for growth:

based on your Reflection Guide, decide where you will focus your learning

4

5

Check out aligned resources:

using the IMPACT webpage, select resources to support your growth goal(s)
