Coordinated Early Intervening Services

Did the student receive Coordinated Early Intervening Services (CEIS) funded by IDEA Part B during the current year?

A district must have established criteria for identifying the population of students eligible to receive CEIS prior to using this data element. Contact your local district administration if you are unsure if criteria have been established in your district.

Code	Description	Definition
1	Yes and funded by the LEA	Requires an annual application to the AEA.
2	Yes and funded by the AEA	
3	Yes and funded by both the LEA and AEA	
0	No	

User Notes
1. CEIS is an annual indicator and remains marked for one year only. Districts will set all records to '0' for CEIS at the start of each school year.
2. Not applicable to nonpublic schools.
3. Must be 0 for PK students
4. Students receiving CEIS must be in need of additional support based on the district's criteria for CEIS. Students receiving CEIS cannot have an IEP at the time that they are receiving CEIS and must be in grades K-12. Students may be served by an LEA or AEA. A student should be marked as having received CEIS if the student meets the district's criteria for being in need of additional support through CEIS and either (a) received direct services or (b) received services from a teacher who received professional development funded by Part B of IDEA funds directed for the purpose of CEIS. Whether funded via AEA or LEA Part B dollars, it is the responsibility of the LEA to mark the students in Student Reporting.
5. The determination of the need for additional support under CEIS may be based on academic achievement or behavior, depending on the issues on which the district is focusing effort. Guidance has been given to districts regarding their responsibility to determine need for additional support. Questions about eligibility for CEIS at the district level should be directed to the district administration. Questions about CEIS data collection at the state level should be directed to John Lee.
6. If an AEA chooses to use CEIS funds the Director of Special Education of the AEA is responsible for notifying districts within that AEA of any teachers who received professional development using those funds and for coordinating the use of the district's definition of need for additional support for the provision of direct services to students. Students receiving direct or indirect services via Part B funds through the AEA should be coded using this data element.
7. While CEIS are only for students in general education, it is possible that, after receiving services, a student will also receive an IEP. In that case both the CEIS and IEP indicators will be marked yes.
8. The use of CEIS is required for districts that have been determined to be significantly disproportionate for the identification, placement, or discipline of students with disabilities. The timely and accurate submission of these data is required for districts that have been determined significantly disproportionate and for any other district or AEA that chooses to allocate Part B funds for the purpose of CEIS.

Immigrant

Is the student considered an immigrant?

The term "eligible immigrant student" is defined as an individual student who (a) is aged three through twenty-one; (b) was not born in any state (each of the 50 states, the District of Columbia, and the Commonwealth of Puerto Rico); and (c) has not been attending any one or more schools in the United States for more than three full school years. (20 U.S.C. § 7011[6].)

Code	Description	Definition
1	Yes	
0	No	

User Notes
1. Date entered US schools is required if Immigrant is 1.
2. Immigrant status remains for the entire year.
3. A child adopted at age 3-21 who meets the criteria is an immigrant.
4. In the educational environment, a student is classified as an immigrant only until the student has attended US schools for a cumulative period of three years. Once the three years of eligibility for immigrant status have been met, the immigrant indicator should be updated at the end of the school term. Example: An immigrant student attended one year of school in Texas before arriving in Iowa and would be eligible for immigrant status for two additional years.
5. Immigrants (adults and children) come to the U.S. with the intention of making this country their permanent home and have no intention of returning to their countries of origin. Schools may not question immigrant students as to their "legal" status and may not demand their "documentation." Pursuant to Plyler v. Doe, public school districts shall provide these students, assuming they meet residency requirements, with tuition-free education.

LIEP Instructional Program

Code	Description	Definition
1	Dual Language Program	Also known as two-way, or developmental, the goal of these bilingual programs is for students to develop language proficiency in two languages by receiving instruction in English and another language in a classroom that is usually comprised of half native English speakers and half native speakers of the other language.

15	Sheltered Instruction	An instructional approach used to make academic instruction in English understandable to English language learners (ELs). In the sheltered classroom, teachers use physical activities, visual aids, and the environment to teach vocabulary for concept development in mathematics, science, social studies, and other subjects.
16	English as A Second Language (ESL)	A program of techniques, methodology, and special curriculum designed to teach English language learners (ELs) English language skills, which may include listening, speaking, reading, writing, study skills, content vocabulary, and cultural orientation. 5. PK students cannot be Open Enrolled or Tuitioned In District Paid to another district unless they have an instructional IEP.
6. The Entry Code for Foreign Students depends on the visa they hold: J-1 Visa - 11 Foreign Exchange Student; F-1 Visa - 3 Tuition In Parent-Paid. Students with a B-2 visa are not allowed to be enrolled in the district.
7. If an entry code of a student changes throughout the year but the school remains the same, the enrollment of the original status needs to be ended with an exit code of 14 (End or Change enrollment). The student is then re-enrolled with a new entry code and resident district, if applicable.
8. BEDS Entry Codes (students served): 1, 2, 3, 4, 5, 10, 11, 15, and 60 except when Service/Facility Type is 8 (Border Agreements).
9. Nonpublic BEDS Entry Codes (students served): 10,11, and 81.

A student who open enrolls from District A into District B that WGS with District C remains under open enrollment whether the student is attending in District B or District C. The open enrollment transfers between Districts B and C, depending on the district serving the student. If the parent rescinds the open enrollment, then the student is no longer under open enrollment.
18. A student with an IEP can participate in open enrollment to the same extent that a student without an IEP can participate.
19. A 4+ year 12th grade IEP student under open enrollment can participate in a transitional program, usually offered by a community college or AEA, to work on the student's transitional goals. Once the IEP team indicates the goals have been met, the open enrolled district codes the student as a graduate with graduate information.
20. Open enrollments are temporarily suspended for students placed in residential treatment.

Homeschool Students not under Dual Enrollment or HSAP
21. If you choose to enter homeschool only students into your SIS you may exclude them from state reporting. Homeschool only students who have a CPI Dual Enrollment of '4' Testing only or '5' Special Education support services only may be state reported with an Entry Code of 6.

23. Entry codes 30 and 31 will require an eight digit service provider of the district providing the HSAP program (4 digit district code followed by 7777)
24. Entry codes 30 and 31: Resident district will keep student actively enrolled with entry code 30 or 31. Attending district will enroll student with Entry Code 16 Public Shared time.

Junior Senior Rule

Is the student continuing enrollment under the Junior Senior Rule?

Code	Description	Definition
1	Yes	
0	No	

User Notes
1. Not applicable to nonpublic schools.
2. The Junior/Senior Rule allows 11th and 12th grade regular education students that move out of a district to continue enrollment in the current district tuition-free, until they graduate even though they are no longer residents of the district. 3. The Junior/Senior Rule allows 11th and 12th grade special education students that move out of a district to continue enrollment in the same district until they graduate even though they are no longer residents of the district. Their entry code becomes tuitioned in from the true resident district and county.
4. If the student was open-enrolled into the district prior to completing tenth or eleventh grade, the student continues as open enrolled. The Junior/Senior Rule does not apply.
5. The Junior/Senior Rule does not apply if the student moved out of state or enrolled in another district prior to returning to the original district.

Full-time Equivalency (FTE)

Full-time equivalent (FTE) is the proportion of time for which a student is expected to attend compared to the total possible attendance in a school year.

> FTE is calculated by dividing the number of periods of expected attendance in a year by the maximum periods possible in a year for a full-time student.

Code	Description	Definition
	0.00 to 1.00	

User Notes
1. With few exceptions, FTE does not equate to Certified Enrollment weighting.
2. FTE values are primarily used for calculating days enrolled and days present for students who attend less than full-time.
3. The FTE cannot exceed 1.00.
4. Students in an every-other-day or half-day Kindergarten program have a FTE = 0.50.
5. PK students should have an FTE to reflect the portion of the day they are expected to be in attendance. (Example: 10 hours per week/elementary contact hours in a week)
6. A dual enrolled or shared time student who takes classes for one period a day for one semester in a 7 period schedule will have a FTE = 0.07.
   1 period x 90 days (semester) / 7 periods x 180 days (maximum periods possible in 1 year) = 90 / 1260 = 0.07
7. If the FTE of a student changes throughout the year but the school remains the same, the enrollment of the original FTE needs to be ended with an exit code of 14 (End or Change enrollment). The student is then re-enrolled with the new FTE.
8. FTE calculations for different types of enrollments and courses are described in Addendum M FTE Guide.

Vendor Notes
- A full time student = 1.00. Allow entry to two decimal places.

This includes SWVPP and CPI HSAP students as well as students in shelter care, detention centers, day treatment programs, residential treatment, community college/AEA programs, and consortiums.
4. One day should reflect an individual student's day. For students assigned to attend only half or partial days, a day enrolled = 1. FTE will be used to adjust the total days for attendance reports.
5. Half-day pre-kindergarten and kindergarten students should be reported as full days.

IEP Level

What is the current IEP level of this Special Education student?

IEPs include not only instructional IEPs, but also those for support services only (for example Speech or Language, Occupational or Physical Therapy, School Social Work, and Special Education Nursing Services). These services are usually provided by the Area Education Agency, but should be reported through Student Reporting. An IEP that specifies the assignment of an aide to assist a student in moving about school is also included.

Code	Description	Definition
1	Level I	Weighted factor = 1.72
2	Level II	Weighted factor = 2.21
3	Level III	Weighted factor = 3.74
0	Support Services Only	No weighted factor
99	Not applicable	

User Notes
1. The purpose of IEP Level is to identify students with IEPs as well as to determine the days non-resident students are in a particular funding level for the Tuition In Billing Application.
2. If a student is staffed into an IEP after the school year has started, end the enrollment using Exit Code 14 (End or Change Enrollment). Re-enroll the student on the first date of the IEP which is also the IEP Placement Date. Enter the IEP Level on the new enrollment.
3. If a student is staffed out of an IEP after the school year has started (not due to graduation) end the enrollment using Exit Code 14 (End or Change Enrollment). Re-enroll the student on the day after the IEP Staffed Out Date. Enter IEP Level of 99 on the new enrollment.
4. If the IEP Level of a student changes throughout the year, the original enrollment needs to be ended with an exit code of 14 (End or Change Enrollment). The student is then re-enrolled with their new IEP level.
5. If an IEP student graduates, enter the Staffed Out Date, but do not change the IEP Level. Do not create a new enrollment record.
6. If an IEP student drops out, transfers to homeschool, or moves out of state, the student is not automatically staffed out of the IEP.
7. PK 4-year-old students who have an IEP for Support Services Only may be counted in a Statewide Voluntary Preschool Program at 0.5 FTE.
8. Nonpublic and home school students receiving special education services through an AEA do not qualify for certified enrollment. They are eligible for special education funding, but instruction needs to be provided by the district in order to be eligible for Certified Enrollment funding.
9. IEP students do not have a separate 504 Plan. Any 504 requirements are to be included in their IEP.

9	Consortium	A consortium is a cooperative arrangement, based on a written agreement, between two or more school districts with the objective of jointly administering a common activity, program, or power, to achieve a common goal where each member school district possesses the authority individually to administer that activity, program or power. The intent of the consortium is generally to maximize efficiency and effectiveness by jointly administering the activity, program, or power. Although an AEA, community college, or private provider might be a purchased instructional service for a consortium established by school districts, the AEA, community college, or private provider would not be a member of the consortium.

2. Students attending a Consortium or Therapeutic Program/Classroom in another district, are reported by their own district and are not tuitioned out. They will have an FTE of 0.01, Service Facility Type 9 (Consortium) or 15 (Therapeutic Program/Classroom) and the Service Provider code from Addendum I.
3. Students who are Homebound cannot have an FTE > 0.50

Exit Date

The ending date of this enrollment period.

> MM/DD/CCYY

User Notes
1. Required for all PK-12 students with an Exit Code.
2. For summer transfer students, enter and exit the student in the current school calendar with no days of attendance.
3. To correctly report attendance for summer transfers (0 days enrolled and 0 days present), follow your SIS guidelines.
4. The Exit Date will have an impact on the calculation of Days Enrolled and Days Present.
5. The Exit Date is the last date of a student's attendance for users of all SIS's but PowerSchool. PowerSchool identifies the day after the last day a student was enrolled as the exit date.
6. For a No-Show, the exit date is the first day of expected attendance.
7. To ensure accurate calculations, students need to be exited when they stop attending and not when records are sent or requested. If the student's destination is unknown at the time attendance stops, use the Exit Code 32 (Stopped attending; no record request).
8. When the status of a student changes (resident district, entry code, etc.), the original enrollment period is ended with the Exit Code 14 (End or Change Enrollment), and the new enrollment record includes the new Entry Date reflecting the beginning of that new status.

Exit Code

The exit code for the enrollment period.

Code	Description	Definition
1	Transferred	Student has transferred to another district, a nonpublic school, the state training school, a regent school, another state or country, competent private instruction (home schooling), or prison.
28	Transferred Within District	Public student has transferred to a different public school within the district on consecutive days.
2	Open Enrolled Out	Student remains a resident of the district but has open enrolled to another district.

4	Dropout	Student is considered to be a dropout according to federal definitions. See Addendum F Dropout Definitions
5	Expelled	Student is removed from the rolls of the district due to board action
29	Expulsion Continuing from Previous Year	The Incident occurred in the previous year and the student is still expelled
6	Reached Maximum Age	Student has reached maximum age prior to 8/23 without completing district requirements for graduation from high school. The student will be considered a dropout. The maximum age for a student is 21. For a special education student, approval may be granted by the department to continue the program for up to three years or until the student's 24th birthday.
7	Deceased	Student is deceased and did not complete graduation requirements
8	Graduated from High School	Student has met district requirements for graduating from high school and met IEP goals, if applicable. Used for midyear graduates only.

30	Withdrawn at the parent's request	Only applicable for PK or KG student
31	Withdrawn at the school's request	Only applicable for PK or KG student
14	End or Change enrollment	For BEDS Entry Codes use '14' when there is a change in Resident District or County, FTE, Entry Code, Foster Care, IEP Level, Residential Facility/Service Provider, or Service/Facility Type and the school does not change. A new enrollment is required to reflect the changed information. For non-BEDS Entry Codes use '14' to end the district enrollment. If the student is changing buildings as a result of the enrollment change, use Exit Code '28'. Assessment Accountability calculation (see Addendum O) depends on using Exit Code '14' correctly.

User Notes
1. Required for all PK-12 students with an Exit Date within the current school year, including summer transfers.
2. ESSA Accountability requires that all students be assigned to a school building and not the district level building of 0000. If Tuition Out students are included in SRI, they must be assigned to the building that they would attend if they were not Tuition Out. Districts are encouraged to include Tuition Out students in their reporting.
3. If a student changes schools within a district, use Exit Code 28.
4. PK-6 students who were active at the end of last year, who did not enroll for the current year, and for whom no reason is known can be exited as 32.
5. PK or KG students who started school but then a decision is made that they are not ready to attend, are Exit Code 30 or Exit Code 31. Destination Code is 99 and there is no Destination Location.
6. 7-12 students with a BEDS entry code who were active at the end of last year, who did not enroll for the current year, and for whom no reason is known are considered to be Exit Code 4.
7. 7-12 students with a BEDS entry code who have stopped attending for unknown reasons must be exited as a 4 or 32 until your district receives a request for records, the family has filed a Form A to be home schooled or the family has provided written documentation of IPI.

8. A student who transfers to a high school equivalency program (e.g. HiSET) or pursues a community college diploma is considered to be Exit Code 4.
9. Students who transfer to a Job Corps program are to be exited with an Exit Code of 1 and a Destination Code of 14 (Job Corps). If the student does not enroll in an Iowa public school, the student will be counted as a dropout.
10. Students who are charged as adults and are serving a jail or prison term are considered to be Exit Code 1.
11. Students who are awaiting trial should remain actively enrolled with a Service/Facility Type of 13 (Awaiting Trial).
12. For students who are Homebound or placed in a Youth Shelter or Juvenile Detention Center, end the enrollment with Exit Code 14. Create a new enrollment with the previous Entry Code and enter the Service Facility Type and Service Provider/Facility code (if applicable) to maintain the active status for the students. See Addendum I for the correct code. The student is not to be counted absent.
13. Do not exit students for short term hospital stays or mental evaluations.
14. Regular education students with an Exit Code 5 or 29 are not counted on certified enrollment since, by definition, they are removed from the rolls of the district.
15. If a student's 21st birthday occurs prior to August 23rd of the current school year, the student must be exited with a code of 6. EXCEPTION: An agency may continue the special education and related services of an IEP student for up to three years beyond the individual's 21st birthday if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruption in that individual's special education. The agency must request approval from the department in accordance with Iowa Code section 256B.8.
16. 8th grade students who, for religious reasons, do not continue into high school should use Exit Code 1 and Destination Code 10. (Iowa Code 299.24 Religious groups exempted from school standards.)
17. To transfer a student to homeschool, a written statement from the parent or Form A is required. Use Exit Code 1 and Destination Code 10 (Home school/non-accredited school). Without either a written statement from the parent or a Form A, the student would be a dropout. (Part 200- Title I- Improving the Academic Achievement of the Disadvantaged, 34 CRF Subtitle B, F-1012).
18. When the status of a student changes (resident district, entry code, etc.),the original enrollment period is ended with Exit Code 14, and the new enrollment record includes the new Entry Date reflecting the beginning of that new status.
19. Open enrollment is temporarily suspended when a student enters residential treatment (Service Facility Type 2 or 3).
20. Exit Codes 14 and 28 use Destination Code 99 and no Destination Location.
21. Exit code 14 is used for any student with Entry Code 18 (Within District Part-time) who has a change in enrollment status.

Vendor Notes

Data Element Rollover: User preference. The user should decide whether to rollover Open Enrolled Out, Tuitioned Out, and Whole Grade Sharing Out. If they are rolled over, use the Entry Code that would reflect their true enrollment if they were in the school followed by last Exit Code. The entry and exit dates should reflect the same date used to rollover the actively enrolled students (within the range of July 1 to the first day of school).

User Notes
1. Codes 11-17 are the only codes that count toward the State of Iowa's definition of work-based learning as defined in SF2411 passed during the 2024 legislative session. These are also the only codes that will count toward the Every Student Succeeds Act (ESSA) school accountability work-based learning measure and the Perkins Secondary Career and Technical Education 5S3 work-based learning measure. Course SCED codes may also be used to identify courses that meet these work-based learning measures.
2. If multiple work-based learning experiences are embedded in the course, select the experience with the highest code number.
3. If a course is marked with an Embedded Career Connected Learning experience it must apply to all sections of the course.
4. May identify experiences in courses K-12. Any course identified with an experience must have a SCED code.
5. Keep the titles as they are so reference can be made to state resources for technical support on implementation.
   a. District planning should be done before reporting by using the *Embedding Work-Based Learning* worksheet located in the Resources section of the Career Connected Learning page.

Section FTE for Funding

What is the course section FTE for Supplementary weighting?

> Section FTE reflects the portion of a school year a student spends in a specific course. Total instructional minutes for your school can be found in Spring BEDS.

User Notes
1. A Section FTE > 0.000 would indicate supplementary weighting is being requested.
2. Supplementary weighting for District to District ICN classes is for both the providing district and the receiving district(s).
3. Various types of courses are eligible for Supplementary Weighting (Iowa Administrative Code 281-97), but the need for section FTE is dictated by course origination:

The following are NOT eligible for Supplementary Weighting -> Section FTE must be 0.000
Course Origination of
- '1' Local Course when not delivered via ICN (section delivery '3') and/or when no public shared time students are enrolled (entry code '16')
- '2' PSEO
- '5' District to District Sharing
- '7' AP Academy Online
- '12' Concurrent Enrollment course in another district
- '13' ILC Repository and no public shared time students enrolled (entry code '16')
- '8' Other

The following MAY be eligible for Supplementary Weighting -> Section FTE may be greater than 0.000
- Course origination of '11'
- Concurrent enrollment courses (course origination '3')
- Courses with public shared time students(entry code '16') enrolled
- Courses provided/taken through ICN (section delivery '3')
- Regional Academy (course origination '10' - DSM only)

Calculating Section FTE for courses taken on a community college campus or online:
> Section FTE = Minutes of CCN / Total instructional minutes in the school.

To determine the minutes of the CCN for Career Academy courses see Career Academy Minutes and SCED Codes and for other courses see Contact Minutes for Community College Courses. Both are on the SRI website.

Vendor Notes
- Section FTE for Funding is reported at the section level to allow sections of the same course to have different values for supplementary weighting.
- If the vendor includes both a stored "Course FTE" and a "Section FTE" (recommended), the Section FTE defaults to the Course FTE upon creation. Both are editable by the user.
