Thomas Mayes, General Counsel, shared information regarding Appeal 5160: In Re Challenged Student Club at Johnston High School. Appellants challenged the decision of the Johnston Community School District (Johnston CSD) to recognize a local chapter of Turning Point USA as a student group. The proposed decision affirmed the Johnston CSD decision. The appellants exercised their right to appeal the proposed decision under Iowa Administrative Code chapter 281-6. The parties have briefed the issues. The parties are present for oral argument.

Mayes introduced Jordan Esbrook, Assistant Attorney General, to answer questions regarding the proposed decision on the behalf of the Department. Mayes stepped out of the room during oral arguments and deliberation.

Andrea McIlwee, on behalf of the appellants, shared the basis of the appeal based on three arguments: 1) the Johnston CSD board violated its policy when it voted to approve the request for Turning Point USA to become a sanctioned student club; 2) the Equal Access Act does not protect the club because it was not student initiated and because the national organization has an unreasonable amount of control over it; and 3) three of the seven school board members should have recused themselves from voting on the club application due to a conflict of interest.

Carrie Weber, attorney for Johnston CSD, responded to the arguments by the appellants and urged the State Board to affirm and adopt in full the proposed order.

Horizon Science Academy Des Moines Charter School Application

Eric Heitz, Administrative Consultant, and Janet Boyd, Consultant, Bureau of School Improvement, presented the Horizon Science Academy Des Moines (Horizon) Charter School application.

Iowa Code 256E established a charter school law, where both local school boards and founding groups may apply to the State Board for approval to establish and operate a charter school. Charter schools, under this law, are a part of the state's program of public education. Horizon follows the founding group-state board model.

Iowa Administrative Rule Chapter 19 states that in order to operate a charter school for the 2023-2024 school year, applications are due no later than November 1, 2022, and the Horizon application was received prior to the deadline.

Department staff have scored the charter school application and attended a public forum with residents, of all which are required components of the application.

Horizon received a sum score across readers of greater than zero on each of the required components in Iowa Code 256E. The applicant responded affirmatively to all of the assurances and conditions in the charter school application. The applicant did not request any waivers. The submitted calendar indicates a start date prior to the required August 23 date, and legal counsel advises the applicant is exempt from Iowa Code 279.10(1).

It is recommended the State Board approve the Horizon charter school, with or without conditions. The recommendation for approval with or without conditions is based on consultant scores/recommendations and the completion of the required elements in Iowa Code 256E.

Boyd shared the following potential conditions for consideration:

- Provide documentation to the Department how and when requested.
- Meet with the Department how and when requested.
- Required meetings with Student Reporting and School Business consultants.
- Any other items needed or requested by the State Board.

There was discussion regarding conditions placed on past charter school approvals.

Kassandra Cline and Janet Boyd provided a report regarding two charter schools approved by the State Board to begin in school year 2022-2023 – Choice Charter and Hamburg Charter High School (Hamburg). This report is a follow-up to topics of concern shared with the board during the November 2022 State Board meeting.

Pursuant to Iowa Code 256E.2 and Iowa Administrative Code r. 281-19.13, the State Board is required to monitor performance and compliance of each approved charter school. Cline explained that Hamburg has made progress in many areas including engaging in a 28E agreement to share operational services with the Hamburg Community School District and budget development and projections. Hamburg anticipates having a new board in place next year and recognizes the need for the charter school board to meet distinctly from the school district board. Since Hamburg will not meet offer and teach, Department staff have developed a proposed procedure for amending a charter application and contract moving forward.

Discussion topics regarding Hamburg included requiring corrective action, students receiving required courses and meeting minimum graduation requirements, waiver procedures for public school districts, the process and timeline for amending current charter applications and State Board authority to entertain charter contract amendments.
