Half-time (H)	.25	.167
Less-than-half-time (L)	.125	.083

Payment History in ICAPS

In order to determine how many points a student has used, you will need to search for the student in the search bar at the top of any ICAPS screen. Once in the student screen, click the “+” sign next to “Payment History.” There are three parts to this section:

Legacy Terms, Points, and NG Credit Hours: Provides historical semester and point information from the previous scholarship and grant system.

Enrollment-based awards: Provides detailed payment information. Payments occurring prior to the 2017-18 academic year will have “missing” fields (such as payment request date, check date, check number, points, and credit hours).

Cumulative Program Point Totals: Provides cumulative program points. Only payments made to date will be factored into point totals.

To determine points for a future academic year: Run the Grant History report in the Standard Report menu of ICAPS.

Note: If a student is close to meeting lifetime maximum, you may need to update the enrollment status on the student screen prior to certifying.
